Easter 2021 2nd to 5th April run by Track Care WA.

Austravel members have been invited to come to this Easter event. You will need to be self contained as in bring your own everything but no requirement to hold grey water. Long drop available at site. It is a working bee so bring your none Covid PPE.

There is about 1Hr of gravel road into the location and I am told the road is good.

Track Care and the Four Wheel Drive Club of WA are jointly planning to visit the former pastoral lease, Narloo Station in the Yalgoo Region (not Gnarloo Station on the coast north of Carnarvon).

Activities for the long weekend:-

1. Working bee and minor repair work on the Narloo homestead and facilities (organised and supervised by Trackcare WA);
2. Surveys of the station tracks to determine suitability for 4WD use (jointly organised by both organisations in consultation with Department of Parks & Wildlife);
3. The premier outdoor screening of the movie '*Road to Ruin*' presented by Geoff Lewis of Seriously Series; (Austravel Member 0053)
4. Photography workshops by Westralian Images;
5. Camp oven cooking and Travel Buddy Oven workshops (organised and supervised by the Four Wheel Drive Club of WA);
6. Ian Glyde (State Manager WA & NT Hema Maps Pty Ltd) will workshop navigation devices / products;
7. Austravel Safety Network members will talk about their not-for-profit High Frequency (HF) Radio Club, which provides an affordable recreational HF radio network for anyone to join.

Plus, more!

People are also planning to continue north after the weekend – i.e. to Gascoyne Junction then 4x4 along the western side of the Kennedy Ranges following the track over the “top” to Mt Augustus then basically south – so there may be opportunity to join in too. This would be 4X4 only.
